Saad Hassan

ASSISTANT PROFESSOR · TULANE UNIVERSITY

Office: Paul Hall 307, Mail: Stanley Thomas Hall 303
6823 St. Charles Ave., New Orleans, LA 70118

saadhassan@tulane.edu | www.saadh.info

Research Focus

My research spans accessible computing, human–computer interaction (HCI), and applied AI. I design and study human–AI systems that address accessibility at multiple levels: supporting communication with and among people with disabilities (e.g., sign language technologies and captioning systems), enabling access to digital information in educational and workplace contexts (e.g., reading support tools and accessible visualizations), and advancing accessibility in the civic sector through AI-enabled sensemaking of accessibility-barrier data.

Education

Rochester Institute of Technology *Rochester, NY*
PHD COMPUTING AND INFORMATION SCIENCE *August 2019 - May 2023*
- Advisor: Matt Huenerfauth

Lahore University of Management Sciences *Lahore, Pakistan*
BS COMPUTER SCIENCE *August 2015 - June 2019*

Professional Experience

Tulane University *New Orleans, LA*
ASSISTANT PROFESSOR, *Full-time* *July 2023 - present*
- Department of Computer Science, School of Science and Engineering
- Director of the Accessibility (A11Y) Lab: `https://saadh.info/a11y/`
- Affiliated with the Center for Community-Engaged AI (CEAI): `https://sse.tulane.edu/cs/ceai`

Rochester Institute of Technology *Rochester, NY*
GRADUATE RESEARCH ASSISTANT, *Part-time* *August 2019 - May 2023*
- Center for Accessibility and Inclusion Research (CAIR): `https://cair.rit.edu/`
- Linguistics and Assistive Technology Lab (LATLAB): `https://latlab.ist.rit.edu/`

Google LLC *Remote (NY)*
STUDENT RESEARCHER, *Part-time* *January 2023 - May 2023*
- Sign Language Understanding Group (SLUG)
- Manager: Thad Starner

Meta Platforms, Inc. *Remote (NY)*
STUDENT RESEARCHER, *Part-time* *September 2022 - Dec. 2022*
- Audio Experiences Team at Meta Reality Labs (MRL)
- Mentors: Yao Ding, Christi Miller, and Agneya Kerure

Meta Platforms, Inc. *Redmond, WA*
RESEARCH SCIENTIST INTERN, *Full-time* *May 2022 - September 2022*
- Audio Experiences Team at Meta Reality Labs

Google LLC *Remote (NY)*
STUDENT RESEARCHER, *Part-time* *September 2021 - May 2022*
- Google Perception

Google LLC *Remote (NY)*
RESEARCH INTERN, *Full-time* *May 2021 - August 2021*
- Google Perception

Awards & Recognitions

2025	**Best Paper Nomination (top 3.5% of 279 submissions)**, ASSETS 2025 (Publication FP.11)
2024	**Best Paper Honorable Mention (top 5% of 4028 submissions)**, CHI 2024 (Publication FP.7)
2024	**Best Paper Honorable Mention (top 5% of 4028 submissions)**, CHI 2024 (Publication FP.8)
2022	**Best Paper Nomination (top 7% of 132 submissions)**, ASSETS 2022 (see publication FP.4)
2022	**Duolingo Dissertation Research Award**, Recognized as one of six awardees for impactful dissertations on language learning technologies
2021	**Language Science and Computational Linguistics Student Excellence Award**, RIT, for outstanding research and coursework in Computational Linguistics

Grants & Funding

My research is supported by federal awards from the National Science Foundation (NSF), state funding from the Louisiana Board of Regents, and competitive internal awards from Tulane University.
Total funding: $638,259; **external funding as PI: $550,912**.

EXTERNAL FUNDING AWARDED

2026–2029	**Collaborative Research: HCC: Designing Civic AI to Connect Residents, Communities, and Local Governments**, Saad Hassan (PI), Aron Culotta (Co-PI), and Nicholas Mattei (Co-PI). National Science Foundation (NSF), Directorate for Computer and Information Science and Engineering (CISE), Future Computing Research (Future CoRe): Human-Centered Computing (HCC). NSF Award No. 2619509. Collaborative project with John Zimmerman and Motahhare Eslami at Carnegie Mellon University (NSF Award No. 2619510), with Tulane University serving as the lead institution. Total collaborative award: **$899,868**.	***$449,868***
2025–2027	**IUCRC Planning Grant: Center for Accessible Healthcare Through AI-Augmented Decisions (AHeAD), Tulane University Partner Site**, Aron Culotta (PI), Zizhan Zheng (Co-PI), Zhengming Ding (Co-PI), Sylvia Ley (Co-PI), and Saad Hassan (Co-PI). National Science Foundation (NSF)	***$23,999***
2024–2026	**Enhancing Expressive and Receptive ASL Learning Using AI-Powered Tools**, Saad Hassan (PI). Louisiana Board of Regents Research Competitiveness Subprogram (RCS), Proposal No. 093A-24. Ranked 14th of 120 proposals. Total award includes a $6,237 cash match from Tulane University	***$102,281***
2022–2023	**Design and Experimental Evaluation of Sign-Language Lookup Tools**, Saad Hassan (PI). Duolingo Dissertation Research Grant	***$5,000***

INTERNAL FUNDING AWARDED

2026–2027	**Making Personal Health Visualizations Accessible for People with Disabilities**, Saad Hassan (PI). Data, AI, and Community Research Grant Program (CEAI/CPS/CAIDS). Tulane University	***$10,000***
2026–2027	**Making Personal Health Visualizations Accessible for People with Disabilities**, Saad Hassan (PI). Lavin-Bernick Grant. Tulane University	***$7,500***
2026	**Designing AI-Based Reading Support Tools**, Saad Hassan (PI). Jurist Summer Fellowship in AI. Tulane University	***$8,500***
2025–2026	**Public Dashboard for Accessibility Barrier Data**, Saad Hassan (PI). Community-Engaged Artificial Intelligence and Data Science Summer Research Program. Tulane University	***$8,500***
2025–2026	**AI-Powered ASL Learning Platform for Emergency Medical Providers**, Saad Hassan (PI). Carol Lavin Bernick Faculty Grant Program. Tulane University	***$10,000***

2024–2025	**Reading Support Tools for People Who Are Deaf or Hard of Hearing**, Saad Hassan (PI). Committee on Research (COR) Fellowship. Tulane University	***$5,000***
2024	**In Situ Text Simplification Tools for Individuals with Low English Literacy**, Saad Hassan (PI) and Aaron Gershkovich (Student Researcher). Center for Engaged Learning & Teaching (CELT) Award for Faculty-Mentored Undergraduate Research. Tulane University	***$1,200***
2024	**Legal-Document Reading Support for Native Chinese Speakers**, Saad Hassan (PI) and Oscar J. Xiao (Student Researcher). Center for Engaged Learning & Teaching (CELT) Award for Faculty-Mentored Undergraduate Research. Tulane University	***$1,200***
2024	**Musical Instrument Digital Interface**, Saad Hassan (PI) and Madeline “Dylan” Murray (Student Researcher). Center for Engaged Learning & Teaching (CELT) Award for Faculty-Mentored Undergraduate Research. Tulane University	***$1,200***
2023–2024	**Understanding the Experiences and Technological Needs of Art Therapists**, Saad Hassan (PI) and Caitlin Chen (Student Researcher). Center for Engaged Learning & Teaching (CELT) Award for Faculty-Mentored Undergraduate Research. Tulane University	***$2,680***
2023–2024	**Art Appreciator for People with Autism**, Saad Hassan (PI) and Will Siver Wagman (Student Researcher). Center for Engaged Learning & Teaching (CELT) Award for Faculty-Mentored Undergraduate Research. Tulane University	***$1,580***

Teaching Enhancement Grants

2026	**Assessment (Re)Design Summer Institute: Teaching and Learning in an AI-Influenced World**, Center for Engaged Learning & Teaching (CELT). Tulane University	***$750***
2024	**Faculty Innovation Grant**, Saad Hassan (PI). Tulane University Innovation Institute (TUII)	***$2,500***
2023	**CELT Classroom Enhancement Grant**, Saad Hassan. Center for Engaged Learning & Teaching (CELT). Tulane University	***$500***

Publications

In computer science, publications in high-quality archival conference proceedings undergo rigorous peer review and are widely regarded as the primary measure of research impact. According to the Computing Research Association[1], conference publications are often preferred over journals, with premier conferences typically being more selective than journals.

I have published **37 works** in total, **18** of which were completed after joining Tulane (including **6** with Tulane students). These include **3 journal articles**, **15 peer-reviewed full-length papers**, **10 peer-reviewed short-length papers**, **3 peer-reviewed book chapters** (conference papers published as book chapters), **3 peer-reviewed workshop papers**, **2 peer-reviewed workshop proposals**, and **1 dissertation**. Summary of publication venues:

- **7 papers** at the **ACM Conference on Human Factors in Computing Systems (CHI, CORE A*)**[2] (6 full-length and 1 late-breaking work),
- **10 papers** at the **ACM SIGACCESS Conference on Computers and Accessibility (ASSETS, CORE A)** (4 full-length and 6 short-length papers),
- **4 papers** at the **International Web for All Conference (W4A, B1)**[3] (3 full-length and 1 communication paper),
- **2 journal articles** in the **ACM Transactions on Accessible Computing (TACCESS, Norwegian Scientific Index 1)**[4],
- **1 paper** at the **ACM International Conference on Mobile Human-Computer Interaction (MobileHCI, CORE A, published as a journal article)**,
- **1 paper each** at the **IEEE/CVF Conference on Computer Vision and Pattern Recognition (CVPR, CORE A*)**, the **Conference on Neural Information Processing Systems (NeurIPS, CORE A*)**, and the **Conference on Empirical Methods in Natural Language Processing Findings (EMNLP Findings, CORE A)**.

Demonstrations and Exhibitions

[D.3] **Nazmun Nahar Khanom**, **Saad Hassan**. 2024. **AI-Based Reading Support Tools for Deaf and Hard of Hearing People**. Tulane Research, Innovation, and Creativity Summit (TRICS), Tulane University, New Orleans, LA.

[D.2] **Aaron Gershkovich** and **Saad Hassan**. 2023. **AI-Based Reading Support Tools**. Annual Undergraduate Poster Session, Tulane University, New Orleans, LA.
Award: Best Prototype

[D.1] Allison Benz, Spencer Montan, Byron Behm, Nisha Cerame, Ikemefuna Chukwunyerenwa, Loam Shin, Jinlan Li, Tony Ellis, Thad Starner, **Saad Hassan**, Abraham Glasser, Max Shengelia, Prerna Ravi, Sahir Shahryar, Colby Duke. 2022. **PopSign: Mobile Games to Teach Sign Language**. Imagine RIT 2022. Rochester, NY.

Teaching Experience and Curriculum Design

I have taught **three courses** at Tulane: **Human-Computer Interaction (CMPS 4330/6330)**, **Introduction to Data Science (CMPS 3160/6160)**, and **Research Seminar (CMPS 7010)**. The first two are cross-listed for **undergraduate** and **graduate** students, while the third is for CS PhD students. I also served as a **teaching assistant** for three courses during my studies. Across these offerings, I earned **strong evaluations**, averaging **4.7/5** on the "recommend instructor" question over the past three semesters. See the **table below** for details and School of Science and Engineering averages.

	HCI (Fall 2023)	HCI (Fall 2024)	Intro. to DS (Spring 2024)	Intro. to DS (Spring 2025)	Intro. to DS (Spring 2026)	Research Seminar (Fall 2025)
1. Class sessions aided learning	4.46 (4.13)	4.81 (4.12)	4.75 (4.21)	4.56 (4.24)	4.12 (4.25)	4.75 (4.23)
2. Exams/projects matched objectives	4.38 (4.31)	4.83 (4.33)	4.75 (4.32)	4.72 (4.36)	4.73 (4.38)	4.86 (4.38)
3. Received meaningful feedback	4.23 (3.85)	4.67 (3.87)	4.46 (3.91)	4.48 (3.99)	3.64 (4.01)	4.88 (3.97)
4. Knowledge of subject increased	4.23 (4.28)	4.78 (4.29)	4.71 (4.33)	4.80 (4.36)	4.54 (4.36)	4.50 (4.35)
5. Recommend this course	**4.00** (4.03)	**4.56** (4.05)	**4.79** (4.08)	**4.76** (4.13)	**4.38** (4.16)	**4.63** (4.14)
6. Recommend this instructor	**4.31** (4.20)	**4.83** (4.15)	**4.91** (4.21)	**4.84** (4.28)	**4.38** (4.32)	**5.00** (4.26)
7. Broadened diverse perspectives	4.00 (3.95)	4.67 (4.00)	4.48 (4.03)	4.28 (4.09)	4.15 (4.14)	4.88 (4.12)
8. Fostered inclusive space	4.85 (4.32)	4.67 (4.30)	4.74 (4.34)	4.72 (4.39)	4.46 (4.44)	5.00 (4.39)

Instructor of Record at Tulane University

Fall 2027: Human-Computer Interaction (CMPS 4330/6330), Tulane University, *Course Instructor* (enrollment 23)

Spring 2026: Introduction to Data Science (CMPS 3160/6160), Tulane University, *Course Instructor* (enrollment 43)

Repeated offering of the course.

Course website: `https://nmattei.github.io/cmps3160/`

Evaluations: *Recommend Instructor:* 4.38/5, *Recommend Course:* 4.38/5

Spring 2025: Research Seminar (CMPS 7010), Tulane University, *Course Instructor* (enrollment 13)

Introduces first-year Ph.D. students in Computer Science to research and teaching practices, including scholarly writing, literature synthesis, replication, and TA training.

Course website: `https://tulanecs.github.io/cmps7010/`

Evaluations: *Recommend Instructor:* 5/5, *Recommend Course:* 4.63/5

Spring 2025: Introduction to Data Science (CMPS 3160/6160), Tulane University, *Course Instructor* (enrollment 39)

Repeated offering of the course.

Course website: `https://nmattei.github.io/cmps3160/`

Evaluations: *Recommend Instructor:* 4.84/5, *Recommend Course:* 4.76/5

Fall 2024: Human-Computer Interaction (CMPS 4660/6662), Tulane University, *Course Instructor* (enrollment 31)

Repeated offering of the course. **Supported by the Tulane Innovation Institute.**

Course website: `https://saadh.info/hci/`

Evaluations: *Recommend Instructor:* 4.83/5, *Recommend Course:* 4.56/5

Spring 2024: Introduction to Data Science (CMPS 3160/6160), Tulane University, *Course Instructor* (enrollment 39)

Inherited this course; students engage in the full data-science cycle and complete semester-long projects (Past projects: `https://nmattei.github.io/cmps3160/projects/PastFinal/`).

Course website: `https://nmattei.github.io/cmps3160/`

Evaluations: *Recommend Instructor:* 4.91/5, *Recommend Course:* 4.79/5

Fall 2023: Human-Computer Interaction (CMPS 4661/6661), Tulane University, *Course Instructor* (enrollment 15)

Developed Tulane's first HCI course. The theoretical component, modeled on MacKenzie's *Human-Computer Interaction: An Empirical Research Perspective*, covers six modules: perception and cognition, user research, experimental design, interaction modeling, evaluation methods, and human–AI interaction. The applied component is a semester-long project structured in two phases: *Getting the Right Design* (user research, qualitative analysis, personas, low-fidelity prototypes) and *Getting the Design Right* (high-fidelity prototyping, evaluations, iterative refinements, final testing). **Supported by a CELT classroom enhancement grant**, the course included a guest lecture series featuring leading HCI and accessibility researchers from academia and industry.

Course website: `https://saadh.info/hci/`

Evaluations: *Recommend Instructor:* 4.31/5, *Recommend Course:* 4.0/5;

CELT Guest Lectures Evaluations: *Connecting to Classroom Experience:* 5/5, *Connecting to the Course:* 5/5

Teaching Assistantships

Fall 2022: Capstone in Human-Computer Interaction (HCIN 700), Rochester Institute of Technology, *Teaching Assistant*

Fall 2022: Research Methods in HCI (HCIN 600), Rochester Institute of Technology, *Teaching Assistant*

Spring 2019: Software Engineering (CS 360), Lahore University of Management Sciences, *Teaching Assistant*

Mentoring

At Tulane, I currently advise **3 PhD students**, all of whom are in their third year. Each has either published with me or has a coauthored submission under review. I have also served on a PhD student's dissertation committee; the student successfully defended their prospectus in Fall 2024 and their dissertation in Summer 2026. Beyond PhD advising, I have supervised **2 master's students** through independent studies or research positions and **6 undergraduate students** in funded research positions, in addition to supervising one undergraduate honors thesis and one independent study. I have also advised **6 capstone teams**, comprising **17 undergraduate students**. In total, I have advised **24 undergraduate students** and **one high school student** at Tulane. In my courses, two PhD students and two undergraduate students have served as teaching or class assistants. Some of my undergraduate advisees at Tulane have subsequently enrolled in graduate programs at prestigious institutions, including: Shayne Shelton (M.S. in Electrical and Computer Engineering, Purdue University), Miranda Diaz (M.S. in Information Science, Cornell University), Caitlin Chen (M.S. in Health Informatics, Boston University), and Will Silver Wagman (M.S. in Computer Science, Tulane University). Two of my undergraduate students have received the CRA Honorable Mention award for undergraduate research.

Before joining Tulane, and in collaborations outside the university, I mentored 23 students in research roles that resulted in several publications. My latest mentoring plan is available on my website in the "People" section: `https://saadh.info/`

Ph.D. Dissertation Advisees

Areen Khalaila — Computer Science Ph.D. Student, Tulane University (2025–2026).
Co-advised with Rebecca Faust. Co-author on submitted paper (FP.14).

Chaelin Kim — Computer Science Ph.D. Student, Tulane University (2024–Present).
Co-author on published works (FP.15; FP.11; SP.9).

Syeda Mah Noor Asad — Computer Science Ph.D. Student, Tulane University (2024–Present).
Co-author on published work (PF.13; P.1).

Nazmun Nahar Khanom — Computer Science Ph.D. Student, Tulane University (2024–Present).
Co-author on published work (SP.10); Presenter on demo (D.3).

Areen Khalaila — Computer Science Ph.D. Student, Tulane University (2025–2026).
Co-advised with Rebecca Faust. Co-author on paper (FP.14).

Dissertation Committees

Yongbo Chen — Computer Science Ph.D. Student, Tulane University. (2026–Present)
Oral qualifier committee member.

Linsen Li — Computer Science Ph.D. Student, Tulane University. (2024–2026)
Thesis prospectus defended on November 20, 2024. Thesis successfully defended on July 16, 2026.

Master's Student Research Advisees

Justin Haysbert — Computer Science M.S. Student, Tulane University (2024–2025).
Independent study successfully completed in Spring 2025.

Will Silver Wagman — Computer Science M.S. Student (Psychology B.S.), Tulane University (2023–2024).
Recipient of CELT Undergraduate Sponsored Research Grant. Co-author on published work (FP.8). Best Paper Honorable Mention Awardee at CHI '24.

Undergraduate Student Research Advisees

Hoang Dieu Linh (Evelyn) Nguyen — Computer Science B.S. Student, Tulane University (2026–Present).

Nikhil Modayur — Neuroscience & Computer Science B.S. Student, Tulane University (2024–Present).
Co-author on published work (SP.9); Honorable Mention, CRA Outstanding Undergraduate Researcher Award.

Oscar Xiao — Finance & Computer Science B.S. Student, Tulane University (2024–Present).
Recipient of CELT Undergraduate Sponsored Research Grant.

Madhangi Krishnan — Neuroscience & Computer Science B.S. Student, Tulane University (2024–2025).
Co-author on published work (SP.9).

Cameron McLaren — Psychology & Computer Science B.S. Student, Tulane University (2024–2025).
Co-author on published work (SP.9).

Aaron Gershkovich — Biomedical Engineering & Computer Science B.S. Student, Tulane University (2024–2025).
Honorable Mention, CRA Outstanding Undergraduate Researcher Award; Recipient of CELT Undergraduate Sponsored Research Grant'
"Best Prototype" award winner at the 2024 Annual Undergraduate Poster Session, Tulane University;
Co-author on published work (SP.10); Presenter on demo (D.2).

Michael M. Weild — Finance & Computer Science B.S. Student, Tulane University (2024).

Madeline 'Dylan' Murray — Biology & Computer Science B.S. Student, Tulane University (2024).
Recipient of CELT Undergraduate Sponsored Research Grant.

Caitlin Chen — Neuroscience & Computer Science B.S. Student, Tulane University (2023–2024).
Recipient of CELT Undergraduate Sponsored Research Grant.

Undergraduate Honor Thesis Advisees

Sydney Wade — Neuroscience & Computer Science B.S. Student, Tulane University (2024–2025).
Thesis successfully defended in Spring 2025.

Undergraduate Independent Study Advisees

Yaniv Nagar — Psychology & Computer Science B.S. Student, Tulane University (2026).

Undergraduate Capstone Advisees, Most Projects Were Research Oriented

Term	Project	Students
2025-2026	*HealthVis*: Accessibility Health Visualizations	Emily Aymond, Madeline Davis, Jaimie Morris
2024-2025	American Sign Language Learning Tool for Emergency Medical Providers	Madhangi Krishnan, Cameron McLaren
	Parla Playground: Spanish Language Learning Game for Children	Miranda Diaz, Zoe S. Oboler, Sam DeMarinis
	Accessible Rich Caption Editor	Hubert Mendez, Ethan Schaferkotter, Izzy Blair
2023-2024	*CogniSync*: Brain-computer Interface for Wheelchair Navigation	Justin Haysbert, Ryan Stevens, Shayne Shelton, Gabriel Sagrera
	College Compass: Interactive Educational Path Visualization Tool	Devin Gutierrez, Tanner Martz

Teaching and Class Assistants

Chaelin Kim — Computer Science Ph.D., Tulane.
CMPS 4330/6330 Human-Computer Interaction (Fall 2026).

Hrishi Kabra — Computer Science B.S., Tulane.
CMPS 3160/6160 Introduction to Data Science (Spring 2026).

Nazmun Nahar Khanom — Computer Science Ph.D., Tulane.
CMPS 3160/6160 Introduction to Data Science (Spring 2026).

Cameron McLaren — Psychology & Computer Science B.S., Tulane.
CMPS 4661/6661 Human–Computer Interaction (Fall 2024).
CMPS 3160/6160 Introduction to Data Science (Spring 2025).

Amin Mir Fakhar — Computer Science Ph.D., Tulane.
CMPS 3160/6160 Introduction to Data Science (Spring 2025).

Lorraine Steigner — Classical Studies & Computer Science B.A., Tulane .
CMPS 4660/6662 Human–Computer Interaction (Fall 2024).
CMPS 3160/6160 Intro. to Data Science (Spring 2024).

Yunbei Zhang — Computer Science Ph.D., Tulane.
CMPS 3160/6160 Intro. to Data Science.

Student Advisees Prior to and Outside Tulane

Lloyd May — Computer-based Music Technology & Acoustics Ph.D. Student, Stanford University (2023–2025).

Caluã de Lacerda Pataca — Computing & Information Sciences Ph.D. Student, RIT (2021–2025).
Co-author on published work (FP.9, FP.8, FP.4). Best Paper Award Nominee (ASSETS'22). Best Paper Honorable Mention (CHI'24).

Laleh Nourian — Computing & Information Sciences Ph.D. Student, RIT (2021–Present).
Co-author on published work (FP.7). Best Paper Honorable Mention (CHI'24).

Mathew Watkins — Human–Computer Interaction M.S. Student, RIT (2021–2022).
Co-author on published work (J.3).

Kira Hart — Secondary Education of DHH Students M.S. Student, RIT (2021–2022).

Abhay Dixit — Computer Science M.S. Student, RIT (2021–2022).

Sunnihith Manduva — Human–Computer Interaction M.S. Student, RIT (2020–2021).

Ruiwen Fan — Human–Computer Interaction M.S. Student, RIT (2019–2020).

Matyáš Boháček — Computer Science B.S. Student, Stanford University (2021–Present).
Co-author on published work (SP.6, FP.11).

Toni D'aurio — ASL–English Interpreting B.S. Student, RIT (2023–Present).
Co-author on paper (FP.9); published work (FP.9).

Max Shengelia — Web and Mobile Computing B.S. Student, RIT (2021–2023).
Co-author on published work (J.2, FP.10).

Nathan Tinker — ASL–English Interpreting B.S. Student, RIT (2022–2023).
Co-author on published work (FP.7).

Briana Davis — ASL–English Interpreting B.S. Student, RIT (2021–2023).
Co-author on published work (FP.8).

Diego Navarro — ASL–English Interpreting B.S. Student, RIT (2021–2022).
Co-author on published work (FP.4, J.3).

Alexis Gordon — Human-Centered Computing B.S. Student, RIT (2020–2022).
Co-author on published work (FP.3).

Megan Gross — ASL–English Interpreting B.S. Student, RIT (2021–2022).

Velvet Howland — ASL–English Interpreting B.S. Student, RIT (2021–2022).

Cole Inniss — Human-Centered Computing B.S. Student, RIT (2020–2021).

Taylor Harris — ASL–English Interpreting B.S. Student, RIT (2021–2022).

Jake Schwall — New Media Marketing B.S. Student, RIT (2021–2022).

Sarah Morgenthal — ASL–English Interpreting B.S. Student, RIT (2020–2022).

Konce Quispe — Computer Science B.S. Student, RIT (2019–2020).

Ben Leyer — ASL–English Interpreting B.S. Student, RIT (2019–2022).

Service Activities

At Tulane, I have served in service roles both within and outside the department across **four committees**. Outside the department, I have been a member of the **SSE Curriculum Committee** since Fall 2023, where I facilitated communication between the department and the committee, contributing to the approval of **10+ new CS courses** and **two new programs**. Within the department, I have served as **Communications and Social Chair**, on the **Computer Science Curriculum Committee**, and on the **Undergraduate Studies Committee**.

Beyond Tulane, my service roles have included both conference leadership and reviewing activities. Since joining, I have served as **Workshop Chair** for ASSETS'23, **Proceedings Chair** for ASSETS'24, and as a **Best Paper Award Committee Member** for CHI'24 and CHI'25. I have also organized two workshops, including one on participant recruitment in accessibility research at ASSETS'25 and one on participatory AI for community engagement at HCOMP'24.

In reviewing roles, I have served on **two NSF panels**, as an **Associate Chair** at CHI for **four years**, on the ASSETS **Program Committee** for **five years**, and as an **Area Chair** at EMNLP. I have also served as a reviewer for the TACCESS journal for **three years**. Overall, I have reviewed **136+ submissions** for top HCI venues and **15+ submissions** for AI venues. I have received **three special recognitions** for outstanding reviewing.

Within the University

CS Communications and Social Chair, Tulane University (2024–Present).
SSE Curriculum Committee, Member and CS Representative, Tulane University (2023–Present).
CS Curriculum Committee, Tulane University (2023–2024).
CS Undergraduate Studies Committee, Tulane University (2023–Present).

Conference Leadership Roles

Best Paper Award Committee Member, CHI 2026, 2025, 2024.
Workshops Chair, ASSETS 2024.
Proceedings Chair, ASSETS 2023.

Conference Program Committee Roles

Associate Chair, CHI (2023–2027).
Program Committee Member, ASSETS (2022–2026).
Area Chair, EMNLP 2023.

Grant Review Panels

Proposal Reviewer and Panelist, National Science Foundation (NSF), Directorate for CISE, IIS (2024–2025).
Proposal Reviewer and Panelist, NSF SBIR/STTR Program (2024).

Reviewing

Conference Reviewer

ACM Conference on Human Factors in Computing Systems (CHI) — Papers (2022–2027, **Special Recognition for Outstanding Reviews** in 2022 and 2023); Case Studies (2023); Late-Breaking Work (2023)
ACM Conference on Computer-Supported Cooperative Work and Social Computing (CSCW) — Posters (2024–2025)
ACM Conference on Designing Interactive Systems (DIS) — Papers (2025, **Special Recognition for Outstanding Reviews**)
ACM SIGACCESS Conference on Computers and Accessibility (ASSETS) — Technical Papers (2022–2026); Posters & Demos (2022–2026); Workshops (2022); Experience Reports (2022)
ACM Conference on Intelligent User Interfaces (IUI) — Posters & Demos (2023–2025)
IEEE Conference on Virtual Reality and 3D User Interfaces (VR) — Papers (2023)
International AAAI Conference on Web and Social Media (ICWSM) — Posters & Datasets (2023)
ACM SIGCHI Annual Symposium on Computer–Human Interaction in Play (CHI PLAY) — Work-in-Progress (2022)
ACM Symposium on Eye Tracking Research & Applications (ETRA) — Short Papers (2022)
ACM/IEEE International Conference on Human–Robot Interaction (HRI) — alt.HRI (2022)
ACM Interaction Design and Children Conference (IDC) — Work-in-Progress (2022)
ACM International Symposium on Wearable Computers (ISWC) — Notes & Briefs (2022)
Nordic Conference on Human–Computer Interaction (NordiCHI) — Papers & Critiques (2022)
Australian Conference on Human–Computer Interaction (OzCHI) — Case Studies & Late-Breaking Work (2021)

Journal Reviewer

Research in Developmental Disabilities (2026–Present)
IEEE Transactions on Visualization and Computer Graphics (TVCG) (2026–Present)
International Journal of Human–Computer Interaction (IJHCI) (2024–Present)
ACM Transactions on Accessible Computing (TACCESS) (2022–Present)
ACM Proceedings of the ACM on Interactive, Mobile, Wearable and Ubiquitous Technologies (IMWUT) (2024–Present)

Ethics Reviewer

ACL Rolling Review (2024)
Annual Conference of the North American Chapter of the Association for Computational Linguistics (NAACL) (2024)

Other Service Activities PRIOR TO AND OUTSIDE TULANE

Communication Chair, Center for Accessibility and Inclusion Research, Rochester Institute of Technology (2020–2022).
Student Volunteer, Conference on Empirical Methods in Natural Language Processing (EMNLP 2021).
Student Volunteer, International Web for All Conference (W4A 2022).

Dissemination

I have delivered several research talks in courses, seminars, and centers at Tulane University, as well as at external venues. These exclude talks presented at conferences or workshops. In addition, some of my work has been featured in university news articles, and I have organized two workshops at academic conferences.

Guest Lectures in University Courses

"**Studying and Designing Human–AI Systems with and for People with Disabilities and Disability Communities**," *Center for Community Engaged AI, Tulane University* (September 2025); *Biomedical Engineering Seminar, Tulane University* (September 2025); Digital Humanities (DATA 3810).

"**Human–Computer Interaction and Accessibility Research**," *Introduction to Computer Science (CMPS 1500), Tulane University* (April 2025, November 2023); *Research Seminar (CMPS 7010), Tulane University* (November 2024); *CS for High School Students Outreach Program, Tulane University* (November 2024); *Graduate Orientation in Computer Science, Tulane University* (August 2023).

AI and Equity (Panel), *Tulane University, New Orleans, LA* (April 2024).

"**Ubiquitous Computing for People with Disabilities**," *Human–Computer Interaction with Mobile, Wearable, and Ubiquitous Devices (HCIN 722), Rochester Institute of Technology* (April 2021).

Invited Talks and Panels

"**Literature Review on HCI Research on Reading Support Technologies**," *Readability Research Consortium* (September 2023).

"**AI-powered Linguistic Technologies for Deaf and Hard of Hearing Individuals (Panel)**," *NOLA AI Conference, New Orleans, LA* (November 2023).

"**AI-powered Sign Language Learning Tools**," *Duolingo Research, Pittsburgh, PA* (November 2023).

"**Designing AI-based Applications to Benefit Deaf and Hard of Hearing Individuals and Sign Language Users: An HCI Perspective**," *Tulane University, New Orleans, LA* (March 2023); *University of Amsterdam, Netherlands* (February 2023); *Pennsylvania State University, State College, PA* (February 2023).

"**Designing AI-based Applications to Benefit Deaf and Hard of Hearing Individuals and Sign Language Users**," *University of Alabama, Tuscaloosa, AL* (February 2023). *San Francisco State University, Remote* (February 2023).

"**Designing and Experimentally Evaluating Applications of AI-based Technologies to Support Deaf and Hard of Hearing Individuals and Sign Language Users**," *California Polytechnic State University, San Luis Obispo, CA* (February 2023). *Seattle University, Seattle, WA* (January 2023). *Union College, Schenectady, NY* (January 2023). *Dickinson College, Carlisle, PA* (February 2023).

"**Language and Speech-based Assistive Technologies for Deaf and Hard of Hearing Individuals**," *Johns Hopkins University*, (November 2022).

"**Designing Emotive Captions for Deaf and Hard of Hearing Individuals**," *Meta Reality Labs, Redmond, WA* (August 2022).

"**Sign Language-based Smartphone Interactions**," *Google People + AI Research (PAIR) Group, Remote* (April 2022).

"**AI-based Technologies for Deaf and Hard of Hearing Individuals**," *Research Experience for Undergraduates (REU) Symposium, Remote* (July 2021).

Workshops Organized

Participatory AI for Community Engagement (PACE) Workshop, HCOMP 2024.
`https://tulanecs.github.io/PACE/`

Participant Recruitment in Accessibility Research Workshop, ASSETS 2025.
`https://assets-recruitment-2025.github.io/`

Media Outreach

"**Saad Hassan: Researching at the Intersection of Computing and Accessibility**," *RIT News* (October 5, 2022). www.rit.edu/news/researching-intersection-computing-and-accessibility

"**Our 2022 Duolingo Research Grant Winners!**," *Duolingo Blog* (September 16, 2022). blog.duolingo.com/2022-duolingo-research-grant

External Professional Development

NCFDD Faculty Success Program, 2025
Enrolled in the National Center for Faculty Development & Diversity (NCFDD) Faculty Success Program, a semester-long intensive focused on research productivity, time management, and mentoring to support sustained academic growth.

CRA Career Mentoring Workshop, 2024
Participated in the Computing Research Association (CRA) Career Mentoring Workshop, engaging in small-group discussions with federal program managers and directors to develop long-term research strategies and lab management practices.

TeachAccess Program, 2021
Completed training on accessible technology design practices and inclusive development methods to integrate accessibility principles into computing education and research.

Professional Memberships

Association for Computing Machinery (ACM): Special Interest Group on Accessible Computing (SIGACCESS), Special Interest Group on Human-Computer Interaction (SIGCHI), Special Interest Group on Information Retrieval SIGIR
